

I.S.L.E.M. s.r.l.

Impresa **S**carpa **L**avori **E**dili e **M**arittimi

I.S.L.E.M. s.r.l. is present in the Construction Trade since 1960.

The long experience matured during the last fifty years of working in the building trade that is his own best speciality as a building company, allowed **I.S.L.E.M.** to operate with efficacy and efficiency capacity in all the working phases and in particular because of its technical and professionally well prepared staff and it permitted to be prepared in many construction fields (dwelling house, industrial, maritime work, facilities and sewerage system)

Thanks to its competence and reliability the business is able to assure the clients a global solution to their own needs, in the Technical-Design aspect and Building-Management aspect. It works using the maximum safety, respecting the project and the contract, warranting to the Building Sponsor the maximum reliability under all the Technical and Human conditions.

Essentially **I.S.L.E.M.** Works in three sectors:

- it is a building company working for every kind of contract;
- it works as General Contractor for private or public purchase;
- it builds and sells on its own through controlled real estates.

All these thanks to its long experience matured in the trade, the tested and fluid organization, the global service and a strong basic impulse towards the research and the renovation so to be able to offer new constructive solutions.

I.S.L.E.M. propose the contractor own solutions, with the last technology in the industrial, commercial and residential constructions.

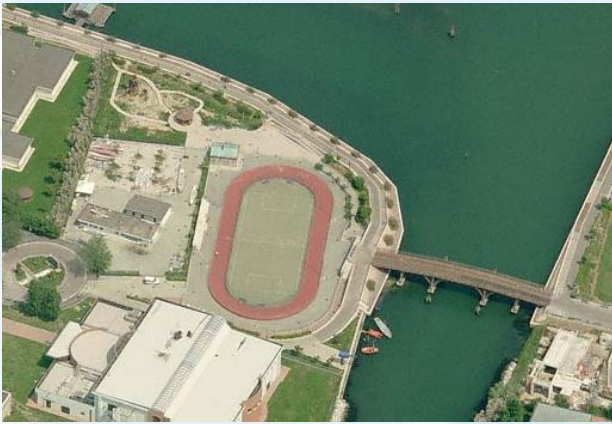

We believe that residential buildings must be functional in respect of urban development of the cities and has to permit people to live in modern quarters, characterized by an high quality level in terms of living, healthy, security and most of all energetic efficiency and environmental supporter.

The base of our projects is the security of fast achievement time, with fixed and respected dates, the willing of building only with the highest criteria following environmental support and building energetic certification, thanks to the use of new technology.

Our strong point is, as well, the capacity of predispose a next urban development to the construction of buildings integrating them to the existing urban development, retraining it.

It is long time that **I.S.L.E.M.** is working towards an efficient working system to continue performing better and better: so its objective is to improve, aware and liability of our staff and directs human and financial resources towards the realization of the business objective that are quality, environment and security.

I.S.L.E.M. is organized by a Quality Management System (SGQ) in conformity of the low UNI EN ISO 9001:2008 and by an Environment Management System (SGA) in conformity of the low UNI EN ISO 14001:2004 and obtained the relative certifications by an official system.
